is submitted by the manufacturer to initial type testing of the product, a factory production control and to the further testing of samples taken at the factory in accordance with a prescribed test plan. The approved body

Polymer Institut

has performed the initial inspection of the factory and of the factory production control and performs the continuous surveillance, assessment and approval of the factory production control.

This certificate attests that all provisions under the responsibility of the approved body concerning the attestation of factory production control described in the Annex ZA of the standard

DIN EN 1504-2

are applied for the production groups named above.

This certificate was first issued on 2007-12-19 and remains valid as long as the conditions laid down in the harmonised technical specification in reference and the manufacturing conditions in the factory and the FPC itself are not modified significantly and latest on the 31th of January 2014.
