

ONE SIKA: VERSATILE SOLUTIONS FOR EVERY CHALLENGE

BRIDGES

- Emission-reduced and fast bridge sealing
- Joint tapes
- Concrete repair (RM)
- Polymer mortar (PRM) for gradient compensation
- Cable and pipe penetration sealing
- Cable fire protection coatings

OFFICE BUILDINGS

- Plastic waterproofing membrane
- Green roofs
- Roof guardrail systems
- Bonding and sealing glass facades
- Sealants for joint waterproofing
- Alternative concrete reinforcement in base plates
- Decorative floor coatings
- Floor coatings with cork as a filler
- Cement-bound floor systems incl. Terrazzo
- Cable and pipe penetration sealing
- Cable fire protection coatings
- Industrial wood protection for roof trusses and exterior facades

DATA CENTERS

- Self-adhesive single ply waterproofing membranes
- Replacement of reinforcement in floor slabs
- Waterproofing green concrete
- Joint waterproofing systems
- Water-based two-component epoxy resin sealants
- Fire-resistant protection
- Joint waterproofing
- Adhesives and sealants for glass facades and door production
- Cable and pipe penetration sealing
- Cable fire protection coatings
- Industrial wood protection for roof trusses and exterior facades

RESEARCH BUILDINGS

- Innovative single ply waterproofing membranes
- Versatile fastening solutions
- Roof guardrail systems
- Replacement of reinforcement in floor slabs
- Floor coating (clean room & ESD)
- Coatings (ESD & crack-bridging)
- Sealants for joint waterproofing (RM)
- Cable and pipe penetration sealing
- Cable fire protection coatings
- Industrial wood protection for roof trusses and exterior facades

MODULAR CONSTRUCTION

- Passive fire protection systems
- Flat roof waterproofing systems
- Adhesives and coatings for floor/wall elements
- Waterproofing systems thanks to a wide range of sealant solutions
- Concrete and gypsum admixtures
- Cable and pipe penetration sealing
- Cable fire protection coatings

MULTI-STOREY CAR PARKS

- Single ply waterproofing membranes
- Mounting systems for photovoltaic systems
- Replacement of reinforcement in floor slabs
- Concrete repair (RM)
- OS car park systems
- Metal-free expansion joint profiles
- Sealants for joint waterproofing (RM)
- Cable and pipe penetration sealing
- Cable fire protection coatings

PRODUCTION FACILITIES

- Single ply waterproofing membranes
- Mounting systems for photovoltaic systems
- Roof guardrail systems
- Adhesives for sandwich panels
- Replacement of reinforcement in floor slabs
- Floor coating systems (dissipative & WHG)
- Joint profile for joints that can be driven over
- Sealants for joint waterproofing
- Waterproofing of machine foundations
- Static reprofiling of breakout points
- Adhesives and sealants for window production
- Canteen and industrial kitchen waterproofing systems
- Cable and pipe penetration sealing
- Cable fire protection coatings
- Industrial wood protection for roof trusses and exterior facades

RESIDENTIAL BUILDINGS

- Refurbishment and renovation solutions in retail
- Floor renovation
- Tile adhesives and grouting
- Decorative floor systems
- Decorative wall systems
- Interior waterproofing solutions
- Joint and sealant materials (structural and connection joints)
- Balcony coatings
- Mounting adhesives
- Window membranes
- Cable and pipe penetration sealing
- Cable fire protection coatings
- Wood protection for outdoor use

ONE SIKA A NEW CHAPTER IN OUR SUCCESS STORY

SIKA DEUTSCHLAND CH AG & CO KG

Kornwestheimer Str. 103-107
70439 Stuttgart

BUILDING TRUST

ONE SIKA: PRODUCTS, SYSTEMS, AND SOLUTIONS FROM A SINGLE SOURCE

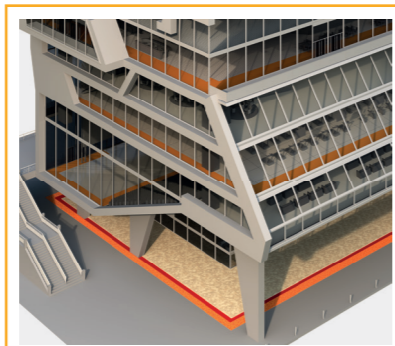

As a leading provider of construction chemical solutions, we offer a **comprehensive product range** for every construction project, including innovative solutions, and products to support energy efficiency and sustainable construction. Our promise: Tailor-made solutions from a single source – **for every construction application**.

Whether it's sealing, bonding, damping, reinforcing, or protecting, Sika has the right solution for every construction professional. Our products meet the **requirements for a wide range of building types**.

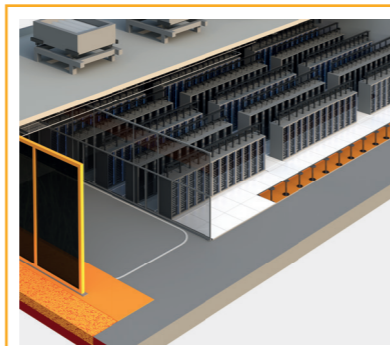

Craftsmen, planners, architects, building owners, contractors, and manufacturers of building elements can benefit from our enhanced variety of products, systems and solutions, which are now available from our even broader portfolio. Whether it's solutions for concrete or flat roofs, floor coatings, joint solutions or adhesives and sealants – we are your all-rounder for **all requirements relating to your building or construction**. Talk to us and let our experts find the right solution for you!

ONE SIKA: MULTIPLE PRODUCT BRANDS - ALL UNDER ONE ROOF

The Sika umbrella brand now combines the **strong product brands PCI, SCHÖNOX, and THOMSIT**. This combination brings the best of all worlds – **multiple product brands** under one roof. The combined, high-quality product range includes concrete admixtures, special mortars, sealants and adhesives, damping and reinforcing materials, floor coatings, roof waterproofing systems, solutions for bonding tiles, and floor coverings.

We are supporting an increased focus on the growing segment of **refurbishment, renovation, and modernization**. We offer tailor-made systems and services from a single source to make the completion of projects as easy and successful as possible for professional retailers and industry.

Discover the added value of our **bundled product solutions** across all brands!

ONE SIKA: A BENCHMARK FOR INNOVATION AND SUSTAINABILITY

We make you ready for the future. Combining **global technology leadership** and a deep understanding of **local construction requirements**, we develop innovative and sustainable products, systems, and solutions that make your projects even more successful. With a global presence and subsidiaries in 103 countries, manufacturing in over 400 factories, and developing innovative technologies for customers around the world, Sika is making a significant contribution to the sustainable transformation of the construction and automotive industries. As your **partner in the construction industry**, we take responsibility for the environment. Our innovative and sustainable product solutions support **energy-efficient construction projects** and reduce your carbon footprint. Further information on sustainability at Sika and our strategy can be found at:
